

# ProDry Absorbent Blanket

**THE VDRY BLANKET ONE** IS THE MOST ADVANCED MODEL OF OUR RANGE OF ABSORBENT BLANKETS TO REDUCE CONDENSATION DAMAGE TO GOODS.

With a number of new features, the **Vdry Blanket One** improves moisture absorption, while reducing the risk of leaking and environmental impact.

**Vdry Blanket One** is the pinnacle in protection against container rain, and the go-to choice for even the most high-risk shipments.

## KEY FEATURES

### UNRIVALED ABSORPTION

Capacity of 250 liters is 4x greater than other models on the market.

### LEAKPROOF DOUBLE FILM

New dual film prevents condensation forming on the lower surface.

### IMPROVED HANGING

Classic hook system complemented by elastic loops to secure above container door.

### ECO-FRIENDLY

Available in white only with color dyes removed to reduce environmental impact.

### BREATHABLE MEMBRANE

Microporous materials facilitate flow of humid air.

### SINGLE PIECE

Manufactured with a single piece to eliminate the risk of leaking via seams.

**AVAILABLE FOR 20', 40' AND 45' CONTAINERS**

## ESPECIFICACIONES

Model	VK11		VK11L	
Container size	20'	40'	20'	40'
Product size (meters)	2.5m x 6m	2.5m x 12m	2.5m x 7m	2.5m x 13.5m
Hanging system	✓		✓	
Breathability (Grams of water)	497g/m <sup>2</sup>			
Absorption capacity (Liters per square meter)	8.6l/m <sup>2</sup>			
Total absorption per Vdry Blanket (liters)	~129l	~258l	~149l	~286l
